Renting the Simply Sixteen . Further Information

Before you can rent the Simply Sixteen, you must complete a training session with a member of staff. The training session lasts 1 hour, costs £25 and includes all practice materials. At the end of the session you will be able to load your quilt sandwich on to the frame and move and reclamp it when you need to. Bring up the bobbin thread and be able to start and stop stitching and anchor threads. You will be able to use the groovy boards which have designs for you to follow and be able to use the laser stylus to quilt designs. You will have the chance to practice free motion designs and get the feel of the machine for free motion quilting. When you rent the machine a member of staff will always be in the shop in case you have a problem but the training session is designed for you to get the best out of your rental by being confident in the basics of using the machine. You will be able to load your quilt with the easy to use clamps and get quilting without interruption.
