

## Saturday Classes ó Curved Piecing Saturdays 18<sup>th</sup> Aug, 1<sup>st</sup>, 15<sup>th</sup> and 29<sup>th</sup> September

I have made a number of A4 sized samples using the curved piecing technique but you can make bigger and differently sized pieces as well. I have made the curved samples into a long thin wall hanging but they could also be made into a cushion or bag front. You can follow one of my designs or draw your own. Have a go at this at home before class if you like! We will start by all doing one of the simpler curved patterns so that you can master the technique, then you can make more or design your own.

Scraps and eighths are fine as you don't need big pieces. 9 x 6 inches is about the biggest and you can also piece bits together to make a section. You will need additional fabric depending on what you want to turn the samples into.

### Requirements

At least 4 different fabrics ó fat quarters, scraps or eighths

Thread that matches each fabric or invisible thread. However you may not need to match every fabric as the order that we sew the curves depends on your design. Bring whatever threads you have and we can decide in class if you need any additional ones

50cm freezer paper

For the wallhanging (14 x 36ö approx)

15cm sashing

40cm for borders and binding

45cm backing

45cm x 1m wadding
